DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-18 are rejected under 35 U.S.C. 102(b) as being anticipated by one of Barreras, Sr. et al. (US 5,733,313) and Parise (US 5,982,139).

Each reference discloses a wireless battery charger having, *inter alia*, means for generating a signal such as a RF signal with a carrier frequency or transcode frequency thru an antenna. The transcode frequency or carrier frequency is used to avoid crossbeam with another device. A battery receives the transmitted signal and stores the power.
